

SRB Technologies Canada Inc. Household Survey 2005

Dear Pembroke Resident,

In an effort to better characterize the habits of local residents, you are being invited to take part in a **brief and confidential survey**, commissioned by SRB Technologies Canada Inc.

- *SRB Technologies Inc. is licensed by the Canadian Nuclear Safety Commission (CNSC) to manufacture Tritium Light Sources for Safety Signs and Devices.*
- *SRB employs almost 40 local residents.*
- *The Pembroke facility has been in operation since 1991.*
- *Through the manufacturing process, small quantities of Tritium are released.*
- *Tritium is a low-energy radioactive form of Hydrogen.*
- *SRB continuously monitors releases and the local environment to ensure regulatory compliance and public safety.*
- ***Accurate information about local residents and their eating habits helps SRB determine release limits.***

Along with the survey, you will find detailed information about SRBT and its products and processes.

We thank you in advance for completing our survey! Once completed, please use the self-addressed, postage paid envelope to return it to us. Contact information for SRB is indicated on the enclosed brochure. **SRB will not make efforts to contact any survey participant, EXCEPT those participants who indicate "YES" to question one.**
